

Why He Was Late.

"What made you so late?"
 "I met Smithson."
 "Well, that is no reason why you should be an hour late getting home to supper."
 "I know, but I asked him how he was feeling, and he insisted on telling me about his stomach trouble."
 "Did you tell him to take Chamberlain's Tablets?"
 "Sure, that is what he needs." Sold by all dealers.

HUSBAND RESCUED
DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side:

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

SCHOOL CHILDREN

should have rich, red blood and sturdy, healthy bodies to withstand cold rains, changing seasons and winter storms.

If your child is weary when rising—lacks energy and ambition—has no appetite or possibly sallow skin or a pinched face—it is for want of vital body-nourishment; this growing period demands special, concentrated, easily digested food for body-development—mental strain—physical changes.

Scott's Emulsion is the greatest body-builder known—it is nature's wholesome strength-maker—without alcohol or stimulant—*makes rosy cheeks, active blood, sturdy frames and sound bodies.*

But you must have **SCOTT'S**.

IMPROVING HEN FLOCK

Great Deal Depends on Selection of Setting Eggs.

Should Be Those From Year Old Birds, as Chicks Will Be Larger and Stronger Than Those From Pullet.

(By A. J. WILDER.)

Care should be taken to save for settings only the eggs from the best hens. A very great difference can be made in a flock in a few seasons by the selection of the eggs for hatching.

By choosing the largest eggs the fowls will be much larger in size, but there is a great probability that they will not be good layers. The hen that lays an unusually large egg is quite likely to lay only every other day.

By setting her eggs and again the next season setting the largest eggs, you will develop a strain of large fowls that will lay very large eggs, but will lay only every other day, or even less.

On the other hand, if you set the eggs from the hens, that as pullets laid during their first fall and winter, and continue to set eggs from such hens, you will develop a strain of early winter layers.

The eggs for settings should be from year old hens, as the chicks will be larger and stronger than those from pullet eggs. It is best to mate

Every Poultry Home Should Have Some Convenience for Confining Broody Hens.

cockerels instead of old cocks with these hens, as the eggs are more apt to be fertile and there will be a larger percentage of pullets.

Choose the medium sized, well shaped eggs and be sure the shell is firm and strong. A weak shell is sure to be broken, and, besides the loss of the egg itself, will likely ruin several of the other eggs in the nest and may even teach the hen to break and eat them.

Feed the hens a little air slacked lime in the mash to give the eggs a good strong shell. Be sure the lime is well slacked and give two tablespoonfuls to 100 hens every day.

Do not force the breeding stock for egg production. Feed them mostly whole grain, wheat, oats, corn and barley. Let the mash be a light feed and give them fresh sweet meat scraps twice a week.

Feed plenty of green food, unless the fowls have range where they can find it for themselves. Keep them supplied with pure, clean drinking water and have charcoal, grit, oyster shell and dry bone always before them.

Don't forget a little salt in the mash. It should always be salted as much as the same quantity of food would be for the table.

The hens must be made to exercise by scratching for their grain in the litter. They must be healthy and in good condition if you are to raise strong, healthy chicks.

A diseased condition of the hen is transmitted to the egg and will appear in the chick when hatched.

Protection for Trees.

Some orchardists have been successful in protecting their trees by smearing the trunks near the ground with mixtures which are distasteful to rabbits. For this purpose white-wash, a mixture of glue and copperas, decoction of quassia chips and blood or grease, have been used. Mechanical protection by means of some wrapping is more permanent and effective than any form of wash.

Effect of Animal Husbandry.

Live stock make it necessary to diversify crops and grow more crops upon which there is a wider margin of profit. Animals also distribute labor, furnish employment in time of bad weather, or when field work is not possible. Animal husbandry is the logical way to insure soil improvement, as the increased fertility from manure is often sufficient to justify raising animals.

Converted Wagon.

From the standpoint of convenience, the farm wagon that has been made over into a low-down vehicle with wide steel tires has a strong appeal. It is easily loaded, and overcomes all the objections to high wagons of the old type.

Hearty Eaters.

All cows that are hearty eaters are not profitable producers, but all profitable producers are usually hearty eaters.

MUFFLED KNOCKS.

"I'm sure you will be glad to learn, doctor, that my husband has improved a great deal since you quit coming."

"It's too bad, old fellow, that they shut off your speech at that banquet the other evening just as it was beginning to be interesting."

"Nobody can make me believe you were drunk on New Year's eve, Tom—unless somebody else set up the beverages."

"Dear sir—Although you failed to inclose stamps for return postage we are sending your manuscript back to you as a matter of courtesy."

These Times.

Ex-Governor Pennypacker, discussing the divorce evil in Pennsylvania, said, with a smile:

"In these times one never, as the saying goes, knows where one is at. An acquaintance of mine extended his hand to me at the Historical society the other day and cried:

"Congratulate me! I am the happiest man alive!"

"I looked at him doubtfully.

"Engaged, married or divorced?" I asked.

HE WAS IT.

"Smother, the new congressman makes an awful clever speech. He may be smart, but he doesn't look it."

"You want to take a squint at his secretary."

Victor.

I barked my knuckles.
 And each shin,
 But got the old
 Ender in!

Breaking It Gently.

Mrs. Bukkit—Gude mornin', Mrs. Flintle. Peelin' well today?
 Mrs. Flintle—Yes, very well, thanks.
 Mrs. Bukkit—An' strong?
 Mrs. Flintle—Oh, yes, Mrs. Bukkit, quite strong.

Mrs. Bukkit—Then p'raps you'd be able to bring back the two washtubs you borrowed last week!—London Opinion.

A Practical Idea.

"Plimson brought back from abroad a Tibetan prayer wheel."

"How is it operated?"

"The pious Tibetan whirls it around in his hand."

"Do you think a contrivance like that would be efficacious?"

"Yes, I should think it would be highly efficacious in fly time."

His Business.

Insurance Secretary—I believe you are a hard drinker?

Insured (who has met with an accident)—That's my business.

Secretary—Um! May I inquire whether you have any other occupation?—London Tatler.

Awful.

"It must be terrible to have to spend your days in this place," said the lady who was visiting the penitentiary.
 "Yessim," replied the lifer. "We has prunes every Sunday."

"BLAWSTED VERNACULAR."

Tourist—We 'ave very much larger fish at 'ome than I 'ave seen in this country.

Guide—That may be, mister. But what I can't understand is why only the suckers come over on this side!

Impontations.

She goes abroad for everything
 Since she came into wealth,
 Her gloves, her hats, her lingerie,
 Her dresses and her health.

Double Chance.

Willis—My son wants to go to war.

Gillis—That so?

Willis—Yes, in the aeroplane corps.

Gillis—Great Scott, why does he want to get killed twice?—Puck.

Its Title.

"What," asked the professional prize fighter, "shall I call this history of my battles?"

"Why not," replied his adviser, "call it your Scrap Book?"

"Young man, when you buy a buggy, be sure it's a Studebaker"

Sound advice from the man who has been driving one for twenty years.

When you buy a Studebaker buggy you are buying all the skill, experience and science in buggy building that half a century can produce. You are protecting yourself against the mistakes of younger builders.

You will always be proud of the Studebaker nameplate, for there isn't a buggy on the road that is its equal for style, luxury and good looks.

Flexible bent-reach gear, graceful lines, solid corner, plugless body, double-ironed shafts, are a few of the special Studebaker features.

The new close-fitting shifting rail is enough in itself to make you buy a Studebaker buggy.

Salves Can't Cure Eczema

In regard to skin diseases, medical authorities are now agreed on this: Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid.

WASH THE GERMS OUT.
 A simple wash: A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D.D.D. Prescription. This penetrates to the disease germs and destroys them, then soothes and heals the skin as nothing else has ever done.

A 50 cent bottle will start the cure and give you instant relief.

We have made fast friends of more than one family by recommending this D.D.D. Prescription to a skin sufferer here and there, and we want you to try it now on our positive pay guarantee. D.D.D. Soap keeps the pores clean; ask us.

Chas. E. Butler & Son, Paris, Ky.

Surprised Them.

Turkish General—"Did you surprise the enemy?" Colonel—"Yes; they didn't expect to see us run."

Boston Transcript.

Oh, Sugar.

Gradually, but surely, the world is being Americanized. A Paris restaurant advertises: "Kakes de buckwheat de Americaine."

Divine Law.

And what is the divine law to a man? To hold fast that which is his own and to claim nothing that is another's.—Epictetus.

And Modish, Too.

Grace—"I hear that the daintiest muslims are made from the fibers of the banana tree." Lulu—"Then they ought to be easy to slip on."—Judge.
